**ABOUT CLEVELAND & Northeast OHIO**

Downtown Cleveland sits on the shores of Lake Erie, which is one of the Midwest's Great Lakes. The Cuyahoga River empties into Lake Erie, and divides Cleveland into the west and east sides.

*Cleveland is a world-famous center for art and culture!*

The city boasts one of the country's most saturated square mile of art and culture in its famous University Circle area, which is only a short driving distance from JCU:

### **About University Heights, home of John Carroll University**

JCU is located in University Heights, a mostly residential eastern suburb of Cleveland, and our campus is walking or biking distance from almost all points in the city:

### **Ethnic Cultures in the Cleveland & N.E. Ohio Area**

Cleveland is known for being “an ethnic city,” because the area attracted – and still does – many immigrants from all over the world. And, since Cleveland was created by a diverse mixture of ethnic groups, this is just one of the many things that give our city its interesting character, not to mention the array of ethnic foods, neighborhoods, and customs. The following website – with many links – gives you a sampling of the major ethnic groups that have contributed to making Cleveland what it is today:

The Cleveland Cultural Gardens are unique – each is designed and maintained by a different ethnic group, including the HUNGARIAN GARDENS:
